YEAR 10 ASSESSMENT PROCEDURES

Year 10 marks the first of the years in which students can earn a leaving credential. This is the **Record of School Achievement**. Employers and the community in general expect all school leavers to present a record of school achievement from secondary school. It is therefore important for you to consider your attitude to school work and your effort and organisation in Year 10 as this record of achievement will be on “the public record” and stay with you for all time.

Year 10 requires a new level of maturity and a recognition that the junior years are about to be left behind.

At the end of the year, you will be awarded a **Record of School Achievement, (ROSA)**

Which:

- indicates that you have **attended regularly** and satisfactorily studied the necessary subjects throughout Years 9 and 10,
- lists all the subjects and courses studied and the level of achievement in each of these as an A, B, C, D, E, or N grading.

The aim of this booklet is to outline the school’s expectations of you in Year 10 and to provide important information about the various ways in which assessment takes place. Each subject has a published schedule of assessment tasks which must be completed throughout the year in order for a grade to be awarded to a student. These are similar in all schools and are based on the students working towards achieving the learning outcomes published in the NESA (NSW Education Standards Authority) syllabi. Year 10 has a much greater level of formal assessment than in the junior years because students’ achievements are being reported in terms of all students across New South Wales and the same standards are to be applied in every NSW school.

Please take the time to read the information in this booklet carefully, keep it in a safe place and think carefully about the expectations in Year 10.

YEAR 10 ASSESSMENT GUIDELINES FOR STUDENTS

1. What are assessment tasks?

These are tasks set in each Year 10 course you study that assess your achievement of the course outcomes. Teachers will use your assessment results to assist them in determining your Year 10 grades.

2. When will I be assessed?

In the following pages each subject studied in Year 10 has an assessment schedule. The schedule shows the type of task (text, exam, written, oral, research, performance etc.), when they will occur and what they are worth.

3. How many tasks will I have to complete?

For each course studies between 3 and 5 tasks will be set.

4. Submitting tasks completed at home.

They should be handed to your class teacher or Head Teacher on the date due.

5. What happens if the task is handed in late?

The task will be marked normally. Then you will lose 25% of the mark allocated for each day late. You may submit an illness/misadventure appeal.

6. What happens if I am absent on the day the task has been done at school?

You may apply to your teacher for an illness/misadventure appeal. If the appeal is declined you will receive zero marks. If your appeal is upheld you may be given a substitute task or an estimate where appropriate.

7. Illness/Misadventure

If you are sick or have suffered a misadventure your appeal must provide written evidence (such as a medical certificate) of genuine sickness or misadventure. Students who are/will be absent during exams are to provide details of the circumstances to the Principal either before or immediately after the examination. An illness/misadventure appeal will be considered.

Note: If you miss days or parts of days (including other subject periods) immediately before the due date of the examination or assessment task (submitted or in class) written evidence (such as a medical certificate) of genuine sickness or misadventure will be required.

8. Change of Task/Date

If a task or date of assessment task has to be changed, students must be notified two weeks in advance and in writing.

9. What happens if assessment tasks are not completed?

It is your responsibility to follow the above guidelines. If you do not complete assessment tasks, warning letters will be sent home notifying you and your parents/caregivers that you may not receive a Record of School Achievement (RoSA). If you fail to perform the actions stated in the warning letters the Principal may decide that you have not met the requirements for the RoSA.

10. Do I only have to complete assessment tasks?

While the importance of assessment tasks cannot be underestimated, you must also apply yourself with diligence and sustained effort to ALL SET TASKS. This includes other tasks completed in class, homework and revision.

11. What happens if I cheat or plagiarise?

You are warned that cheating or plagiarism may incur penalties including awarding a zero mark. A school committee will review such cases and appeals are possible to the Principal.

STUDENT GUIDE TO ASSESSMENT APPEALS

Appeals for misadventure/illness and other assessment concerns should first be taken to your teacher with the relevant justification and or documents. Your teacher in consultation with the head teacher of the subject may uphold or dismiss your appeal and take the appropriate action. If you are still unhappy with the decision made at this level, then you have the right to lodge a formal appeal.

You have the right to lodge an appeal against your assessment result on the following grounds:

1. The assessment process did not provide you with a fair and reasonable opportunity to demonstrate your knowledge and ability.
2. You were not informed in advance of the conditions and method of assessment.
3. The process used was discriminatory in some way.

The appeal must be lodged with the school within five working days of receiving the assessment result.

The school must deal with the appeal within five working days from the registered date of receipt of the appeal.

An appeals panel appointed by the Principal is given the responsibility to manage the appeals system and process.

In response to your appeal the appeals panel may:

- Interview any people involved in your assessment process
- Request another assessor to review your case
- Schedule another assessment
- Uphold or reject your appeal at any stage.

You have the right to have a support person of your choice during the appeals process to help you and to be your witness.

The school must accurately document all appeals procedures and outcomes and provide you with copies. If you are still unhappy with the outcome of the appeal, you can appeal to the Lismore District Office.
